About Me

Computer Engineering graduate with hands-on experience building full-stack web applications using the MERN stack (MongoDB, Express, React, Node.js). Focused on creating clean, responsive interfaces and RESTful APIs with attention to code quality and user experience. Seeking junior full-stack or frontend developer roles across the EU.

Education

B.Sc. Computer Engineering – University of Thessaly, Larissa (09/2018 – 10/2024)

Skills

Frontend: HTML, CSS, JavaScript, React, Bootstrap, jQuery, Responsive Design

Backend: Node.js, Express, PHP, REST APIs

Database: MongoDB, MySQL

Tools & Deployment: Git, GitHub, VS Code, Chrome DevTools, Netlify, Render, GitHub Pages

Projects

Personal Portfolio Website - HTML, CSS, Bootstrap, JavaScript, GitHub Pages - Built a responsive one-page portfolio website to showcase web development projects, with clean layout and mobile-first design. Deployed using GitHub Pages and integrated links to live demos and source code.

Memento Notes App - React, Node.js, Express, MongoDB - Built and deployed a full-stack MERN application with REST API for CRUD operations. Features React frontend hosted on Netlify and Express backend on Render with MongoDB Atlas database.

Random Quote Generator – React, Bootstrap, JavaScript, Fetch API – Developed an interactive web application that fetches inspirational quotes from external REST API with real-time content updates. Implemented responsive design using Bootstrap and React hooks for state management. Deployed on GitHub Pages with mobile-first approach and smooth UI animations.
